Easy jazz piano sheet music free pdf

Learning how to play piano may take time but is manageable with proper training. While it is possible to learn how to play by ear, it is important for beginners to get familiar with music notes by practicing pitch and keys off of sheet music, instructional books or online learning tools. This will go hand in hand with understanding piano keys and practicing classic basics like "Do-Re-Mi." One trick to learning piano is by playing easier songs, such as Christmas carols, children's songs or music that you love and are passionate about. Understanding and practicing sheet music for piano beginners may be a challenge at first but is a must in order to achieve playing piano at an intermediate level and beyond in the long run. Some basic piano knowledge to understand is as follows: The Staff: The set of five horizontal lines and four spaces representing a musical pitch. Treble Clef: The music symbol known as the G clef, located above middle C on the second-lowest line of the staff. Bass Clef: The symbol of music on the fourth line of the staff indicating that it relates to the F next below middle C. Music Notes: Notes are signs used in music to represent the duration and pitch of a sound. Chords: Chords include a group of notes together as a form of harmony. Often, there are two or three or more chords in music which sound simultaneous together. Scales: A scale is a set of musical notes ordered by frequency or pitch. In piano, there are 12 keys in an octave; thus, there are 36 scales total unless you are adding chromatic scales, which would total to 48 scales. Finger Placement: How your fingers rest on specific keys. The correct hand position for piano depends on the type of finger. For example, the thumb finger may go on middle C. The above music sheets are from 8Notes.com. Visit them for more music sheets. New Orleans in the first two decades of the 20th century was a musical melting pot of musical styles. African music was still prominent, as drumming and dancing were some of the few freedoms allowed slaves before emancipation. Ragtime was popular, and its up-tempo and syncopated rhythms had a profound influence on later styles. Military marching bands had begun to influence New Orleans music, in terms of musical forms and also the types of instruments that were available. Communities formed brass bands that played and marched in parades to accompany funerals and holidays. Musicians based in the red light district of New Orleans, known as "Storyville," combined these styles with blues and improvisation, developing the first forms of jazz in bars and brothels. Early jazz is often referred to as "Hot Jazz," and sometimes "Dixieland music." It incorporated the fast and spirited nature of ragtime, and the use of trumpets, trombones, drums, saxophones, clarinets, banjos, and either a bass or a tuba. Also, contrasting with classical music and ragtime, there was an emphasis on improvisation as opposed to written arrangements. Some sections of pieces involved collective improvisation, and others featured soloists, who strove for virtuosity. Directly influenced by ragtime, the stride piano style became popular in New York during World War I. Stride pieces are characterized by a bass line with a half-note pulse played in the left hand while the melody and chords are played in the right hand. The term "stride" comes from the action of the left hand as it strikes a bass note and then moves swiftly up the keyboard to strike chord tones on every other beat. Stride pianists also incorporated improvisation and blues melodies and were keen on technical prowess. Hot jazz groups and stride pianists often toured the country in vaudeville acts and developed followings throughout the south, and in cities such as Chicago, Detroit, New York, and Kansas City. Bands in those regions formed as jazz became more and more popular and were soon filling the airwaves and dancehalls leading into the swing era. Louis Armstrong – Quickly rising to fame because of his unique melodic approach and technical skill, Armstrong was a hot jazz trumpeter and singer in New Orleans who was instrumental in spreading the music's popularity across the country. Bix Beiderbecke – Heavily influenced by Armstrong, Beiderbecke was a cornet player whose cleanly improvised melodies had an influence lasting into the swing era and beyond. Fats Waller – an exuberant performer and composer who was a master of stride piano. He composed "Jitterbug Waltz," "Honeysuckle Rose," and "Ain't Misbehavin'." Kid Ory – a trombonist and bandleader, Kid Ory is credited with developing the tailgate style of playing, which is when the trombonist improvises a simple rhythmic line underneath the melody in early jazz ensembles. Louis Armstrong, King Oliver, and Sidney Bechet played in Ory's band in New Orleans. Sidney Bechet – The first saxophone player to display great technical and improvisational skill, Bechet was an early jazz musician whose influence stretched into later periods of jazz. It's always easier to learn a song that you're already familiar with, so what would be better than to entertain yourself with your favorite holiday tunes while you practice? The following Christmas songs are well-known tunes that have been arranged to sight-read easily for beginner and intermediate pianists. The following sheet music is available in printer-friendly PNG or JPEG image formats, or may be downloaded as one PDF file and comes pre-packaged with lyrics. This carol is famously known as being set to the tune of the traditional English Greensleeves. Written in the key of F# minor, this original arrangement travels the octaves and experiments with texture, so it works best as a solo piano piece, but lyrics have still been included: This is a tranquil D major arrangement of the beloved Austrian classic, Stille Nacht, and a worldwide favorite. The sheet music includes English and German lyrics and is suitable for any playing-level: Another worldwide favorite that's also known as Adeste Fideles, this chord-based version in G major is simple and to-the-point. The lyrics below are available in Latin, English, French, Spanish and German: Learn this calm, yet bright arrangement of the carol's popular Mueller variation, set in the key of D major. Perfect for the intermediate pianist or the beginner pianist who is comfortable with rhythm in the bass: Choose from two playing levels of this English carol: A simple arrangement, designed for the beginner or as a background for vocals, and an elaborate, intermediate tune which boasts fuller chords and a bit more rhythmic freedom. Both versions are written in the key of D major: "The First Noel" Sheet Music & History Chord Progression & English Lyrics This may be the most mysterious-sounding of all the Christmas carols. In this arrangement, the bass line is simple to bring out the medieval qualities of its melody, so it's appropriate for all skill levels. This arrangement is written in the key of E minor: A wintery ode to the evergreen, this tune originated in Germany and went on to become one of the most recognizable Christmas songs the world over. Choose between a simple piano/vocal score and an intermediate arrangement with more frills. Both of these scores are written in the key of F major: "O Tannenbaum" Sheet Music & History Chord Progression & Bilingual Lyrics This peaceful, triumphant carol is among the most beloved in the Anglosphere as well as in French-speaking areas, where it began. This slightly elaborate yet calm arrangement is written in the key of F major and includes lyrics in both French and English: "O Holy Night" Sheet Music & History Chord Progression & Bilingual Lyrics The term "swing" has broad associations. For one thing, it refers to a particular lilting rhythmic style that is based on a triplet subdivision of the beat. This propulsive effect was introduced by stride pianists in the 1920s and has been a common feature of jazz through the decades. However, swing also refers to the style of jazz that was popular from roughly 1930 until around World War II. Swing music was mostly performed by big bands and reached broad audiences over the radio, on records, and in dance halls nationwide. Before the 1930s, small ensembles, usually consisting of a trumpet, trombone, clarinet, tuba or bass, banjo or piano, and drums, performed jazz. Each instrument had a specific role in the ensemble, and aside from the melody, parts were often improvised. This sectionalized approach carried over into the big bands of swing music. But instead of a small ensemble, swing music featured a section of three or four trumpeters, three or four trombonist, five saxophonists who often doubled on clarinets, a piano, a bassist instead of a tuba player, a guitarist, and a drummer. Swing band arrangements were in large part composed, often of simple, repeated material, or "riffs," that alternated between contrapuntal lines and intense unison rhythms. Improvisation also had a featured role, and soloists would play while the rest of the band, aside from the rhythm section, dropped out or played arranged background lines. One explanation for swing music's popularity is that its driving intensity and abandon represented pleasure and freedom in a time when the country was steeped in hard times. The Great Depression caused Americans to suffer, and dancing to swing music was a way for people to forget their worries. During the 1930s, swing came to symbolize joy and ease, the weight of which was reflected in Duke Ellington's piece, "It Don't Mean a Thing (If It Ain't Got That Swing)." Count Basie: Regarded as one of the finest bandleaders in jazz, Count Basie led his orchestra for almost 50 years. His band was known for playing simple, often bluesy arrangements where the focus was on the easy rhythmic feel, an aspect of swing that bands of the area strove to achieve. Gene Krupa: Krupa rose to fame in the 1930s while playing drums with Benny Goodman's band. He had a flamboyant style, evidenced on recordings such as Goodman's "Sing, Sing, Sing." He is considered one of the most influential drummers in jazz, not only for his playing, but also for his role in standardizing jazz drumming technique. Buddy Rich: Rich's powerful and fast drumming made him one of the most famous big band drummers. He played with Artie Shaw, Benny Carter, and Frank Sinatra. He also led his own successful big band into the 1980s, years after the heyday of swing. Freddie Green: Known for defining the role of guitar in a big band setting, Freddie Green enjoyed a 50-year career with Count Basie's orchestra. His style of guitar playing was noted for its harmonic precision and the way it interlocked with the drums. Tommy Dorsey: Dorsey's signature lyrical trombone playing made his big band one of the most popular during the swing era. His band featured Buddy Rich, Gene Krupa, Frank Sinatra, and many other top musicians.
